

**“Future Vascular Surgery Stars”  
EVST@CX2020 Session  
Charing Cross Symposium 2020 (April 21<sup>th</sup>-24<sup>th</sup>)**

**Abstract Submission Deadline February 3<sup>rd</sup> 2020**

The European Vascular Surgeons in Training (EVST) will be organising a “Future Vascular Surgery Stars” abstract session during Charing Cross Symposium 2020 in London.

We invite all young vascular surgeons and trainees to submit their scientific work and get a chance to participate at CX2020.

This year, part of our EVST@CX2020 “**Future Vascular Surgery Stars**” session will focus on the emergencies in vascular surgery – how to treat them and deal with potential disastrous complications, presented by 4 invited speakers. As such, the submission of abstracts related to this topic is encouraged, but all trending topics in vascular surgery are welcome, including interesting cases (optionally with video).

Presenters of accepted abstracts will receive free registration to the Charing Cross Symposium 2020, although travel and accommodation costs will not be covered by CX2020. The best presentations will be awarded with an engraved CX bell.

The abstract should be sent as an attachment (Microsoft Word document, maximum length 300 words) to [info@esvs.org](mailto:info@esvs.org) **no later than February 3<sup>rd</sup> 2020** (23:59 GMT 00), with the **subject EVST@CX2020**. The submission should include the presenter’s contact information and state if a video will be presented (the video can be submitted at the venue).

Authors of submitted abstracts will be informed by February 17<sup>th</sup> if their abstract has been accepted.

Best regards,  
EVST Team
