

## **Course at the annual meeting (Autumn) of the Norwegian Society for Vascular Surgery 2023**

Tuesday, October 24, 2023 (0900 – 1600 Local time)

**Title: Acute and chronic mesenteric ischemia**

**Target groups:** Vascular surgery, intervention radiology, gastric surgery, gastroenterology, and general surgery.

**Objectives:** Improvement in investigation, treatment and follow-up of patients with acute and chronic mesenteric ischemia. Focus on multidisciplinary co-operation and collaboration.

**Content: Presentations, patient interview, discussions, comments and panel debate.**

**Course Committee:** Jon Otto Sundhagen<sup>1</sup>vascular surgeon, Head of Vascular Department, Professor Asle Medhus<sup>2</sup> gastroenterologist, Tom A Wiik<sup>3</sup> gastric surgeon, Ole Grøtta<sup>4</sup> intervention radiologist, Professor Jonny Hisdal<sup>1</sup> circulation physiology and Syed Sajid Hussain Kazmi vascular surgeon (Chairperson)<sup>1</sup>

<sup>1</sup> Vascular surgery department , Oslo University Hospital, Ullevål; <sup>2</sup> Gastric medicine department Oslo University Hospital, Ullevål <sup>3</sup> Department of gastric and pediatric surgery, Oslo University Hospital, Ullevål, <sup>4</sup> Intervention radiology department, Oslo University Hospital, Ullevål.

**Course address:** Meet Arena, Ullevål Stadion, Oslo.

**Contact information:** Norwegian Society for Vascular Surgery.

**e-post:** sshkazmi@gmail.com; [sshkazmi@medisin.uio.no](mailto:sshkazmi@medisin.uio.no); syekaz@ous-hf.no

**Guest speaker: Professor Nabil Chafke, Strasbourg, France and Dr Floor Metz, Nederland**

**Registration deadline: 23.10.2023**

### **Program details**

- 0900 -1000 Introduction (**SSH Kazmi – Oslo University Hospital\_Ullevål**)
- 0910-0930 Patient interview.
- 0930-0950 Status of investigation treatment and ongoing research on celiac artery diseases in Netherlands (**Floor Metz – Nederland**)
- 0950- 1005 Surgical treatment of MALS. (**SSH Kazmi – Oslo University Hospital\_Ullevål**)
- 1005-1025 Challenges to investigate Nutcracker syndrome- how are the results of its treatment? (**Professor Nabil Chakfe – Strasbourg, France**)
- 1025-1040 Is renal autotransplantation a treatment option for the patients with Nutcracker syndrome-who and when? (**Professor Pål-Dag Line, Oslo University Hospital\_Rikshospital**)

#### **1040-1055 Coffee break**

- 1055-1110 Superior mesenteric artery syndrome - how to deal with this diagnosis? (**Rubin Gaupset, Akershus University Hospital, Lørenskog**)
- 1110-1125 Nutritional strategies for the patients with mesenteric ischemia. (**Nicole Warmbrodt, Oslo University Hospital\_Rikshospital**)
- 1125- 1140 Pain management in the patients with chronic mesenteric ischemia- when and what can be achieved? (**Audun Stubhaug, Oslo University Hospital\_Ullevål**)
- 1140- 1155 Transabdominal Duplex ultrasound investigation of the patients with compression syndromes- how good is it? (**Professor Jonny Hisdal, Oslo University Hospital\_Aker and Ullevål**)
- 1135--1200 Questions from the participants.

#### **1200-1300 Lunch**

- 1300-1315 Vascular anatomy, pathophysiology mesenteric ischemia. (**Gorm Edwin, Oslo University Hospital\_Ullevål**)
- 1315-1330 Endoscopic investigation of a patient with chronic abdominal pain. (**Kim V Ånonsen, Oslo University Hospital\_Ullevål**)
- 1330-1400 Radiological investigations and interventions? (**Ole Jørgen Grøtta, Oslo University Hospital\_Ullevål**)
- 1400-1420 A patient with acute mesenteric ischemia – a vascular surgeon’s perspective. (**Simen Tveten Berge, Hospital Innland, Hamar**)

#### **1420- 1435 Coffee break**

- 1435-1450 A patient with acute mesenteric ischemia – a gastric surgeon’s perspective. (**Wiik Tom, Oslo University Hospital\_Ullevål**)
- 1450-1520 Vascular surgery approaches for acute and chronic mesenteric ischemia? (**SSH Kazmi, Oslo University Hospital\_Ullevål**)
- 1520- 1550 Discussion/ Panel debate.
- 1550-1600 Summary and Closing words. (**SSH Kazmi, Oslo University Hospital\_Ullevål**)
