

Aortic Cadaveric Course

Date and time: 28.01.2025

Collaborator: The Thin Line Academy-Verona- Italy

SURGICAL FOCUS		
BASIC	ADVANCED	EXPERT
GROIN CUTDOWN AND FEMORAL EXPOSURE	SUPRACLAVEAR CUTDOWN AND AXILLARY AND SUBCLAVIAN EXPOSURE	STERNOTOMY
NECK CUTDOWN AND CAROTID EXPOSURE	CAROTID-SUBCLAVIAN BYPASSING	THORACOTOMY (4*-6* 10* INTERCOSTAL SPACE)
MEDIAN LAPAROTOMY	CAROTID-CAROTID BYPASSING	TRAP DOOR ACCESS
PARARENAL LAPAROTOMY	INFRADIAPHRAGMATIC CLAMPING	SUPRAORTIC DEBRANCHING
INFRARENAL BYPASSING	SUPRARENAL CLAMPING	THORACO-ABDOMINAL BYPASSING
EXTRAPERITONEAL APPROACH	IVC MANAGEMENT	VISCERAL DEBRANCHING
CLAMPING TECHNIQUES	LOMBOTOMY	HYPOGASTRIC MANAGEMENT

ENDOASCULAR FOCUS		
BASIC	ADVANCED	EXPERT
FEMORAL PUNCTURE	AXILLARY PUNCTURE	SUBCLAVIAN PUNCTURE
PROSTYLE FEMORAL IMPLANT	PROSTYLE AXILLARY IMPLANT	PROSTYLE SUBCLAVIAN IMPLANT
INTRODUCER PLACEMENT	SUBCLAVIAN PLUGGING	ENDOGRAFTING OF THE ARCH
VISCERAL CANNULATION	HYPOGASTRIC EMBOLIZATION	SINGLE BRANCH SUBCLAVIAN IMPLANT
AORTIC CROSSING	TEVAR	TRANSAPICAL HEART APPROACH
ILIAC STENT DEPLOYMENT	ENDOANCHORS	THORACIC PMEG
VISCERAL STENT DEPLOYMENT	B/FEVAR RELEASE	VISCERAL PMEG
ABDOMINAL AORTIC GRAFTING	ILIAC BRANCHING	TBAD MANAGEMENT

Aortic Cadaveric Course

Date and time: 28.01.2025

Collaborator: The Thin Line Academy-Verona- Italy

Programme:

Hours	Day 1
11:45-12:00	Registration
12:00 - 12:45	Welcome and Introduction - Introduction of the Course (Garriboli) - Introduction of the Convenors (Rancic) - Introduction of Participants (1. who am I, 2. Where I am coming from , 3. My experience, 4. Experience of my center , 5. What do I expect from the workshop)
12:45 – 13:30	LUNCH
13:30 - 14:00	LECTURE 1 : Ascending Aorta, Arch, Supraaortic arteries: Anatomical consideration, Access: transbrachial, transaxillar, transsubclavian, transcarotid. Sternotomy (Koncar)
14:00 - 14:30	LECTURE 2: Thoracoabdominal aorta: Anatomical considerations, Left thoracotomy, Thoracophrenolaparotomy (Antonello)
14:00- 14:30	Coffee Break
14:30 – 18:30	Participants divided in five groups
	TABLE 1 (Antonello) Stage 1 : Surgical approach to the supra-aortic vessels (carotid-carotid, carotid subclavian bypass, axillary artery exposure). Stage 2 : Endovascular approach to the arch. Percutaneous implant of arch device.
	TABLE 2 (Rancic) Stage 1 : Surgical approach to the supra-aortic vessels (carotid-carotid, carotid subclavian bypass, axillary artery exposure). Stage 2 : Endovascular approach to the thoracoabdominal aorta. Percutaneous implant of thoracoabdominal device.
	TABLE 3 (Koncar) Stage 1 : Endovascular approach to the arch. Percutaneous implant of arch device. Stage 2 : Surgical approach to the supra-aortic vessels (carotid-carotid, carotid subclavian bypass, axillary artery exposure)
	TABLE 4 (Parlani) Stage 1 : Endovascular approach to the thoracoabdominal aorta. Percutaneous implant of thoracoabdominal device.

Aortic Cadaveric Course

Date and time: 28.01.2025

Collaborator: The Thin Line Academy-Verona- Italy

	Stage 2 : Surgical approach to the supra-aortic vessels (carotid-carotid, carotid subclavian bypass, axillary artery exposure)
	TABLE 5 (Gatta) Stage 1 : Endovascular approach to the supra-aortic aorta Percutaneous implant of suprarenal device. Stage 2 : Surgical approach to the suprarenal vessel (carotid-carotid, carotid subclavian bypass, axillary artery exposure)
19:00 – 20 :00	Check-in at the Hotel
19:00 – 20 :00	SOCIAL DINNER (at Torcolino da Barca corso Castelvechio 5 37100 Vr)

Aortic Cadaveric Course

Date and time: 28.01.2025

Collaborator: The Thin Line Academy-Verona- Italy

Hours	Day 2
8:30 – 9:15	Welcome and QA
9:15-9:45	LECTURE 3: Abdominal aorta: median Laparotomy, suprainguinal approach, retroperitoneal approach, medial visceral rotation, transrenal clamp, suprarenal clamp (Rancic)
9:45-10:00	Coffee Break
10:00 - 13:00	TABLE 1 (Antonello) Stage 1 : Surgical approach to the femoral arteries Surgical approach to the arch by sternotomy Surgical approach to the thoracic aorta Stage 2 : Percutaneous implant of abdominal device.
10:00 - 13:00	TABLE 2 (Rancic) Stage 1 : Surgical approach to the femoral arteries Surgical approach to the arch by sternotomy Surgical approach to the thoracic aorta Stage 2 : Percutaneous implant of IBE device.
10:00 - 13:00	TABLE 3 (Koncar) Stage 1 : Percutaneous implant of abdominal aortic device. Stage 2 : Surgical approach to the femoral arteries Surgical approach to the arch by sternotomy Surgical approach to the thoracic aorta
10:00 - 13:00	TABLE 4 (Parlani) Stage 1 : Percutaneous implant of IBE device. Stage 2 : Surgical approach to the femoral arteries Surgical approach to the arch by sternotomy Surgical approach to the thoracic aorta
10:00 - 13:00	TABLE 5 (Gatta) Stage 1 : Percutaneous implant of abdominal aortic device. Stage 2 : Surgical approach to the femoral arteries Surgical approach to the arch by sternotomy Surgical approach to the thoracic aorta
13:00 – 14:00	LUNCH
14:00 - 17:00	TABLE 1 (Antonello)

Aortic Cadaveric Course

Date and time: 28.01.2025

Collaborator: The Thin Line Academy-Verona- Italy

	<p>Stage 1 : Surgical approach to abdominal aorta by median laparotomy, extraperitoneal approach, infradiaphragm clamping. IVC management</p> <p>Stage 2 : Participant will be free to focus on personal areas of interest</p>
14:00 - 17:00	<p>TABLE 2 (Rancic)</p> <p>Stage 1 : Surgical approach to abdominal aorta by median laparotomy, extraperitoneal approach, infradiaphragm clamping. IVC management</p> <p>Stage 2 : Participant will be free to focus on personal areas of interest</p>
14:00 - 17:00	<p>TABLE 3 (Koncar)</p> <p>Stage 1 : Surgical approach to abdominal aorta by median laparotomy, extraperitoneal approach, infradiaphragm clamping. IVC management</p> <p>Stage 2 : Participant will be free to focus on personal areas of interest</p>
